

FuelCell Energy
Ultra-Clean, Efficient, Reliable Power

United States Energy Association (USEA) Technology Series
Clean, Stationary Power Generation Workshop
June 21, 2010, Washington D.C.

FuelCell Energy is active with legislative outreach at local, state and federal levels. As an example of recent outreach, FuelCell Energy helped to sponsor a workshop with the USEA that highlighted stationary fuel cell systems being developed and deployed today. The workshop was held at USEA headquarters in Washington D.C. and was designed for policy makers, agency officials and industry representatives. Speakers included:

- Tae-Hyoung Kim, Department Manager, Strategic Planning & Marketing
POSCO Power
- David Teichroeb, Business Development Fuel Cell Markets
Enbridge, Inc.
- Andrew Schwartz, Chief Energy Advisor
California Public Utilities Commission
- Frank Wolak, Vice President
FuelCell Energy, Inc.
- Robert Babcock, President
Elemental Power Group, LLC
- John Mizroch, Of Counsel
Wilson Sonsini Goodrich & Rosati

The speaker presentations are available at the USEA website, as follows:
