

# About FuelCell Energy

FuelCell Energy is an American clean energy company delivering continuous, scalable power to support mission-critical applications and grid resilience.<sup>1</sup>

President & CEO  
**Jason Few**

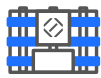

Headquarters and  
Manufacturing  
**Connecticut,  
U.S.A.**

The leading U.S. fuel cell  
manufacturer with  
demonstrated utility-scale  
platforms at

**10 MW, 20 MW  
and 58.8 MW**

in operation for an  
average of **10 years**.

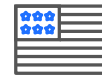

**687**

FuelCell Energy Blocks  
deployed<sup>2</sup>

**553**

Global patents  
covering our fuel  
cell technology<sup>3</sup>

**90%**  
**U.S.-based  
suppliers**

Reliable and scalable  
supply chain<sup>4</sup>

**23**  
Years of proven  
baseload power  
generation

**FCEL**

Listing: NASDAQ  
Founded in 1969 in  
Danbury, CT

<sup>1</sup> The metrics provided are as of October 31, 2025, unless otherwise provided.

<sup>2</sup> Represents cumulative block deployments, including replacement blocks, since 2003.

<sup>3</sup> Patents held by FuelCell Energy, Inc. and our subsidiary Versa Power Systems, Inc. as of October 31, 2025.

<sup>4</sup> Based on FY2025 cost data for the 2.5 MW FuelCell Energy Block System.
