

**Position:** Technician, Test and Conditioning

**Location:** Torrington, CT

In this position, you will play a key role in the final stages of our manufacturing process helping to ensure that our fuel cells perform in accordance within our specifications and are ready for shipment to the customer. This is a multifaceted position that is both rewarding and challenging, as you will be installing the fuel cell to the balance of plant, operating and maintaining a variety of equipment within the balance of plant, and monitoring the heat-up and cool-down process of the fuel cell.

**Responsibilities:**

- Performs integration of Fuel Cell Modules including but not limited to conditioning the new fuel cell, monitoring the startup operation and preparing the module for shipment to the customer.
- Performs all required checks and line-ups prior to starting the heat-up process.
- Performs the set-up, calibration, testing and troubleshooting of circuits, components, instruments and mechanical assemblies.
- Determines and may develop test specifications, methods and procedures from blueprints, drawings and diagrams.
- Tests and troubleshoots assemblies including final systems.
- May complete rework on assemblies and/or systems as a result of testing.
- Prepares technical reports summarizing findings and recommending solutions to technical problems.
- Assist in the selection and set-up of specialized test equipment.
- Operates mobile equipment including forklifts, 60 ton Overhead Bridge Crane and other mechanical assisted lifting devices.
- Maintains physical outdoor work site.
- Places orders parts and materials used in the operations.
- Inputs data into ERP and Work management software.
- Assists in writing procedures and other technical documents.
- Performs predictive and emergent maintenance activities.
- Other duties as required.
- Domestic and International Travel Required: 5 - 15%

**Qualifications:**

**Education:** High School Diploma or GED required. Prefer AS Degree or equivalent combination of technical training and experience.

**Experience:** Minimum of 4 years power plant operations/maintenance or equivalent industry experience troubleshooting of instrument, electrical, mechanical issues required. Some experience in rigging, mobile equipment, and insulation 'a plus'.

**Ideal candidate will have:**

- Strong technical knowledge in the ability to perform maintenance, repairs, troubleshooting, and operation of conditioning facility and site equipment.
- Proven ability to be self-directed as well as be a team player, with the ability to work independently and communicate clearly.
- Ability to use basic office equipment including a computer.

**Working Environment/Physical Requirements:**

- This position works on a 12 hour rotating weekend and night shift.
- Must be willing and able to be on call for 24/7 support when a Conditioning unit is under operations on a rotating basis.
- Some travel between the Torrington and Danbury facilities may be required.
- Works both in climate controlled and uncontrolled environments; must be willing and able to work outside in all weather conditions.
- Frequently required to lift, push, pull and place manufacturing materials up to 50 lbs. with or without assistance.
- Be able and willing to wear required personal protective equipment as designated such as safety glasses, safety shoes, hard hats and other PPE as required.
- Routinely performs tasks that require full range of motion with both hands/arms. Motions include circular, up and down, back and forth, side to side and overhead.
- Must be able to climb ladders and work at heights.

**How to Apply:**

Submit a copy of your resume, along with the voluntary self-identification forms, to **jobs@fce.com**. Please reference the Position (Job Title) in the subject header of your email.

Please note only those authorized to work in the United States will be considered.

*No agency submissions, please. Resumes submitted to any FuelCell Energy employee without a current, signed and valid contract in place with the FuelCell Energy Recruiting team for this position will become the property of FuelCell Energy and no agency fees will be paid.*
