

Position: Facility Technician

Location: Torrington, CT

About Our Company:

FuelCell Energy, Inc. (NASDAQ: FCEL) is a global leader in developing environmentally responsible distributed baseload power solutions through our proprietary fuel cell technology. We develop turn-key distributed power generation solutions and operate and provide comprehensive services for the life of the power plant. We are working to expand the proprietary technologies that we have developed over the past five decades into new products, markets and geographies. Our mission and purpose remains to utilize our proprietary, state-of-the-art fuel cell power plants to reduce the global environmental footprint of baseload power generation by providing environmentally responsible solutions for reliable electrical power, hot water, steam, chilling, hydrogen, microgrid applications, and carbon capture and, in so doing, drive demand for our products and services, thus realizing positive stockholder returns. Our fuel cell solution is a clean, efficient alternative to traditional combustion-based power generation and is complementary to an energy mix consisting of intermittent sources of energy, such as solar and wind turbines. Our systems answer the needs of diverse customers across several markets, including utility companies, municipalities, universities, hospitals, government entities and a variety of industrial and commercial enterprises. We provide solutions for various applications, including utility-scale distributed generation, on-site power generation and combined heat and power, with the differentiating ability to do so utilizing multiple sources of fuel including natural gas, Renewable Biogas (i.e., landfill gas, anaerobic digester gas), propane and various blends of such fuels. Our multi-fuel source capability is significantly enhanced by our proprietary gas-clean-up skid.

Overview:

We are currently looking for a Facility Technician to join our fast paced facilities team at our Torrington, CT fuel cell manufacturing facility. This position will report directly to the Facilities Supervisor and will play a key role in our daily operational readiness as well as our continued operational efficiency and capacity evolution.

Summary: The Facility Technician is responsible for performing routine and non-routine repairs and maintenance to manufacturing and supporting equipment in support of our manufacturing operations.

Essential Duties and Responsibilities:

- Performs all assigned tasks in a professional manner, following all work instructions and work assignments
- Works to industry standard best-practices, specifications and regulatory codes where applicable in a safe, efficient manner
- Responsible for the installation, maintenance, troubleshooting, and repair of all manufacturing equipment, supporting equipment and building assets.
- Performs and documents all predictive, preventative and corrective maintenance on all manufacturing equipment, supporting equipment and building assets.
- Performs regular inspections of plant safety systems
- Performs both interior and exterior maintenance duties including, but not limited to floor and facility cleaning, snow removal, and landscaping as required.
- Performs other duties as required.

Qualifications:

Education: HS Diploma or GED; Trade School preferred.

Experience: Minimum of 4 years of hands-on applicable experience in a manufacturing environment.

Candidate must be knowledgeable with experience in:

- Basic Carpentry, Plumbing, Electrical and Mechanical functions

- Mechanical troubleshooting to determine problems in equipment and processes
- Repairing, rebuild and maintaining manufacturing equipment such as multi-axis machines, heat-treating furnaces, conveyor lines, hydraulic presses, lifts, shears, and brakes
- Reading and interpreting layout plans, blueprints, operating or repair manuals, rough sketches and drawings
- Machine shop tools and equipment, plumbing, pneumatics and hydraulics.
- Must exhibit the ability to communicate with the staff and co-workers in a professional manner
- Functional use of MS Office Suite (Excel, Word, Outlook)

Physical Requirements/Working Conditions

- Be available during normal business hours (7:30 am - 3:30 pm) and be willing to work over normal schedule as necessary in support of the business
- Must participate in 24/7 emergency repair and on-call support rotation
- Physically perform work including lifting and carry a minimum of 25 lbs. routinely and up to 100 lbs. on a non-routine basis with assisted lifting devices.
- Must be able to distinguish colors
- Work and physically move throughout a 170,000 sq. foot plant and on the outside grounds to perform various tasks in normal seasonal Connecticut temperatures and conditions.
- Possess the ability to work at elevated heights in appropriate equipment and operate a forklift and man-lift.
- Work in, around, and under manufacturing equipment, working with both arms and hands simultaneously, pushing, pulling, grasping, etc.
- Work in confined spaces.
- Be able and willing to wear required Personal Protective Equipment (PPE) as designated such as safety glasses, safety shoes, hard hats, respirator, and other PPE as required
- Must be able to effectively read, write and speak in English to ensure team communication and to be able to follow written procedures.
- Must be willing to work as part of an integrated team and cross functionally with other departments.
- Must have, or be able to obtain, a valid driver's license and be willing to travel locally for company business.
