

**Position:** Mechanical Technician - Global Service Center

**Location:** Torrington, CT

**About Our Company:**

**FuelCell Energy, Inc.** (NASDAQ: FCEL) is a global leader in developing environmentally responsible distributed baseload power solutions through our proprietary fuel cell technology. We develop turn-key distributed power generation solutions and operate and provide comprehensive services for the life of the power plant. We are working to expand the proprietary technologies that we have developed over the past five decades into new products, markets and geographies. Our mission and purpose remains to utilize our proprietary, state-of-the-art fuel cell power plants to reduce the global environmental footprint of baseload power generation by providing environmentally responsible solutions for reliable electrical power, hot water, steam, chilling, hydrogen, microgrid applications, and carbon capture and, in so doing, drive demand for our products and services, thus realizing positive stockholder returns. Our fuel cell solution is a clean, efficient alternative to traditional combustion-based power generation and is complementary to an energy mix consisting of intermittent sources of energy, such as solar and wind turbines. Our systems answer the needs of diverse customers across several markets, including utility companies, municipalities, universities, hospitals, government entities and a variety of industrial and commercial enterprises. We provide solutions for various applications, including utility-scale distributed generation, on-site power generation and combined heat and power, with the differentiating ability to do so utilizing multiple sources of fuel including natural gas, Renewable Biogas (i.e., landfill gas, anaerobic digester gas), propane and various blends of such fuels. Our multi-fuel source capability is significantly enhanced by our proprietary gas-clean-up skid.

**Overview:**

We are currently looking for a Mechanical Technician to join our Global Service Center team at our Torrington, CT

**Responsibilities:**

**Specific duties include:**

- Performs disassembly, repair, overhaul and refurbishment of fuel cell power generating equipment and associated system components while adhering to safety and quality standards.
- Performs mechanical and electrical testing and analysis on power generating equipment using proper tools for maintenance, testing and calibration of repaired products.
- Performs diagnostics on mechanical hardware and software using established procedures.
- Prepares and maintains documentation such as parts inventory, cost reduction efforts, equipment maintenance, and other records.
- Communicates effectively both internally and externally as authorized regarding technical issues and product repairs.
- Performs other duties as required.

**Qualifications:**

**Education:** A.S. degree or trade school certificate in electronics, engineering, manufacturing technology, or a related area is preferred; a high school diploma and 5 years of applicable experience may be substituted.

**Experience:** Minimum of 3 years working with industrial equipment (large power generating equipment a plus).

Must be willing to travel in the future up to 50% of the time, domestically and internationally, including Asia. May be required to travel for six consecutive weeks at a time, 3 times a year.

**Ideal candidate must have:**

- A commitment to working safely and a desire to produce quality work
- Basic mechanical skills and experience with most hand tools, portable power tools and test equipment (multi-

meter / thermocouple reader).

- Experience with material-handling equipment is a plus.
- Be able to read engineering blue prints and follow written and verbal work instructions.
- Possess good verbal and written communication skills with strong interpersonal skills to work in a team environment.
- Computer skills, including use of MS-Word, Excel and Outlook.
- Be a self-starter and ambitious who can work with minimal direct supervision.
- Welding, fabrication and Fork Truck experience and/or license a plus.
- Electrical or instrumentation background a plus.
- QC or measurement experience a plus.

#### **Physical Requirements/Working Conditions:**

- Ability to remain on feet and move from area to area within the Plant on concrete floor for 8-10 hours per day without assistance.
- Lifting, pushing, pulling and placement of manufactured parts on a repeated basis that have a weight of at least 25 lbs. and up to 50 lbs with assisted lifting devices.
- Ability to perform repetitive motion tasks with full range of motion with both hands/arms. Motions include circular, up and down, back and forth, side-to-side and overhead.
- Must be able to routinely climb a ladder to a height of 15 feet above the ground and on a non-routine basis work in a man lift up to 20 feet above the ground with proper fall protection equipment.
- Must be physically fit to qualify for and able to wear a respirator throughout the course of employment.
- Just be willing to work periods of rotating shifts, typically 10 hours in duration, during critical work cycles. Expected **2 – 3 weeks in duration and 2 -3 times in frequency per year.**
- Be willing to travel up to 50% of the time, domestically and internationally, including Asia. May be required to travel for six consecutive weeks at a time, 3 times a year.
- Currently have an unexpired US Passport or be able to successfully obtain and maintain a US Passport immediately upon hire.

#### **How to Apply - External Applicants**

Please submit a copy of your resume, **along with the voluntary self-identification forms listed on our career site,** to **jobs@fce.com.** Please **reference the Position (Job Title and Job ID)** in the subject header of your email.

*Please note only those authorized to work in the United States will be considered.*

#### **How to Apply - Current Employees Only:**

Please **reference the Position (Job Title and Job ID)** in the subject header of your email. Also, please email your HR representative that you have applied.

#### **Equal Opportunity Employer - Vet/Disability**

We offer a competitive compensation package as well as comprehensive benefits including medical, dental, vision, company-paid life/disability insurance, 401(k) plan, employee stock purchase plan and generous paid leave.

Employment with FCE is subject to pre-employment drug-screen and background investigation.

*FuelCell Energy, Inc. is committed to ensuring that its application process provides an equal employment opportunity to all U.S. job seekers, including individuals with disabilities.*

*If you believe you need a reasonable accommodation in order to search for a job opening or to submit an application, please send an email with your resume to **jobs@fce.com** or contact us by calling **203-205-2070**. Please indicate the specifics of the assistance needed.*

**NOTE:** *This dedicated phone line is designed **exclusively** to assist disabled job seekers whose disability prevents them from emailing. Only messages left for this purpose will be acknowledged. A response to your request may take up to two business days.*

No agency submissions please. Resumes submitted to any FuelCell Energy employee without a current, signed and valid contract in place with the FuelCell Energy Recruiting team for this position will become the property of FuelCell Energy and no agency fees will be paid.
