

Position: Materials Handler

Location: Torrington, CT

About Our Company:

FuelCell Energy, Inc. (NASDAQ: FCEL) is a global leader in developing environmentally responsible distributed baseload power solutions through our proprietary fuel cell technology. We develop turn-key distributed power generation solutions and operate and provide comprehensive services for the life of the power plant. We are working to expand the proprietary technologies that we have developed over the past five decades into new products, markets and geographies. Our mission and purpose remains to utilize our proprietary, state-of-the-art fuel cell power plants to reduce the global environmental footprint of baseload power generation by providing environmentally responsible solutions for reliable electrical power, hot water, steam, chilling, hydrogen, microgrid applications, and carbon capture and, in so doing, drive demand for our products and services, thus realizing positive stockholder returns. Our fuel cell solution is a clean, efficient alternative to traditional combustion-based power generation and is complementary to an energy mix consisting of intermittent sources of energy, such as solar and wind turbines. Our systems answer the needs of diverse customers across several markets, including utility companies, municipalities, universities, hospitals, government entities and a variety of industrial and commercial enterprises. We provide solutions for various applications, including utility-scale distributed generation, on-site power generation and combined heat and power, with the differentiating ability to do so utilizing multiple sources of fuel including natural gas, Renewable Biogas (i.e., landfill gas, anaerobic digester gas), propane and various blends of such fuels. Our multi-fuel source capability is significantly enhanced by our proprietary gas-clean-up skid.

Overview:

We have a great opportunity for a Material Handler to join our dynamic, newly expanded logistics group.

Responsibilities:

The primary responsibility of this position is to support manufacturing operations and other internal customers through advanced material handling techniques, all while providing superior customer service.

Specific duties include:

- Performs the physical and administrative tasks involved in the shipping, receiving, storing, distributing and order fulfillment of materials, parts, supplies and equipment.
- Unloads goods, visually compares goods to packing list, receives against purchase orders, maintains records of received goods and rejects unsatisfactory items.
- Ensures accuracy of shipments, timely delivery of all shipments and resolves discrepancies according to procedures.
- Packages and ships outgoing materials according to legal specifications, including shipping documentation and oversight of internal and external transporters.
- Communicates routinely with customers regarding availability of stock and establishes material routing priorities.
- Moves heavy items using a forklift or other material handling equipment.
- Inspects, distributes and stocks materials in inventory warehouse, distribution center and on manufacturing lines.
- Performs inventory control duties, including cycle counts and physical inventory.
- Performs other duties as directed by management.

Qualifications:

Education: High School Diploma or GED required.

Experience/Skills: Minimum 6 months of experience in material handling / S&R required; other experience requiring use of forklift operations/motorized pallet jacks/powered industrial trucks will also be considered.

Certifications/Licenses:

- Valid Driver's license is required (CDL not required).
- Ability to acquire and maintain forklift certification (company provided).
- Ability to acquire and maintain HAZMAT certification (company provided).

Ideal candidate will have:

- Ability to work overtime including holidays & weekends as needed, and participating in a rotating on-call schedule to provide 24/7 service.
- Must have or be able to obtain and maintain throughout the course of employment a valid driver's license and have dependable transportation to travel to mail depot locations.
- Ability to climb ladders and utilize mechanical man-lifts.
- Knowledge of receiving, warehouse and material handling operations, methods and practices including reading, analyzing and interpreting written instructions.
- Ability to interact and communicate effectively with all customers, both internally and externally.
- Qualities that promote teamwork.
- Flexibility to perform a variety of duties as the need arises.
- Computer literacy in MS Office, material handling software (ERP or other) and knowledge of shipping software (UPS/FedEx) desired.
- Knowledge of Bar Code technology and Electronic Data Interchange a plus.

Physical Requirements/Working Conditions:

- Regularly works in a Warehouse environment and operate in a manufacturing environment.
- Routinely works in and moves throughout a 70,000+ sq. ft. plant and on the outside grounds to perform various tasks.
- Works both in climate controlled and uncontrolled environments.
- Be able and willing to wear required personal protective equipment as designated such as safety glasses, safety shoes, hard hats and other PPE as required.
- Frequently required to lift, push, pull and place manufacturing materials which have a weight of 25 to 50 lbs. with or without assistance. Heavy lifting of up to 2500 lbs. with a forklift or other material handling equipment.
- Routinely performs tasks that require full range of motion with both hands/arms. Motions include circular, up and down, back and forth, side to side and overhead.
- Works with and around chemicals, including but not limited to nickel based compounds, adhesives and solvents.
- Routinely on feet and required to move from area to area within the warehouse for a period of eight (8) hours with designated breaks.
